/ 1. Glossary

En el glosario de esta unidad, encontraremos expresiones que nos permitirán utilizar un vocabulario adecuado al contexto en que nos encontramos en nuestra familia profesional. Para ello, estudiaremos los términos que encontramos a continuación.

- **Web design** is the process of planning the appearance and function of a website.
- **Usability** is a measure of how easily something can be used.
- A **search engine** is a computer program that is used to locate information on the Internet.
- **Visibility** is a measure of how quickly and easily a website can be located.
- **Web development** is the technical process of building a website.

/ 2. Listening

En este apartado practicaremos la comprensión oral. En el audio escucharemos una conversación entre un diseñador web y un cliente. Después, completa las preguntas sobre la conversación.

1. Listen to a conversation between a designer and a client. Mark the following statements as True or False.

A. The man wants customers to use the website instead of calling the restaurant.

B. Customers can select "Make a Reservation" from any webpage on the website.

C. The woman is concerned that the man's requests are too complicated.

2. Listen again and complete the conversation.

Designer: Let's talk about the website for your restaurant. What should visitors gain from it?

Client: A lot of people call us about our location. I want them to find that on the website instead.

Designer: So we'll include a 1)_____ with a map. What other content do you want to include?

Client: People 2)_____ like to see our menu before they come in.

Designer: Sure. We can also include a calendar of daily specials. That's popular with our restaurant clients.

Client: Good idea. And I'm hoping to take reservations on the website. Is that too 3) _____?

Designer: Not at all. Navigation will be easy. It'll say "Make a Reservation" at the top of every 4) _____.

Client: And what will the pages 5)_____ like?

Designer: That's up to you. What sort of 6)_____ do you have in mind?

Client: It's a seafood restaurant, so maybe an underwater theme?

Designer: Our web development team can definitely work with that.

/ 3. Reading

En este apartado, vamos a trabajar la comprensión escrita con este texto sobre lo que nos ofrece una página web. Lee el texto, señala el nuevo vocabulario y realiza el ejercicio que se muestra a continuación.

R&J WEB SOLUTIONS

In today's high-tech world, every company needs a website. Establish your business on the Internet with MIP from R&J Web Solutions.

Panning

Our experts in web design will work closely with you. They will help you develop the appearance that best represents your company. They will also recommend how to distribute content effectively on each webpage.

Fig.1. Webpage

Creation

Once we have a design, we'll start on web development. Our experienced developers know how to maximize functionality. Have you visited confusing websites? We have, too. That's why we strive to enhance usability whenever possible. Your visitors will appreciate the logical layout and easy navigation.

Access

Now you have a functional website. But how will people find it? R&J Web Solutions guarantees strong visibility. We work with the operators of major search engines. We'll ensure that you receive top placement among search results.

Audio Reading. "R&J Web solutions"
